

Free Breakfast for Promise Academy Scholars

It is important that each of our scholars starts the day off with a healthy breakfast so that they will have the fuel they need to meet the school day. At HCZ Promise Academy Charter Schools, we provide free breakfast and lunch for all of our scholars, every day that school is in session.

During the month of August, when regular school is not in session, your child can still get free breakfast in your community. In early May, [visit this website](#) to find a location in your community that serves free breakfast for children and teens up to 18 years of age during the summer.
